Death of a Beloved Woman.

Mrs. Marie Clements Gentry died last night at 11:15 o'clock at her home on Liberty Street, after an illness of several weeks. She was a woman of noble character, of gentle and lovable traits, and her death is sincerely regretted by a large circle of devoted friends and relatives. Mrs. Gentry was sixty-live years old and was twice married. Her first husband was the late Edwin Reuben Clements, and her second, the late Captain William H. Gentry. She is survived by three sons, honored citizens of this community—Edwin M. Clements and William H. and Samuel A. Gentry—and by one daughter, Miss Minnie R. Gentry. She is also survived by two brothers—Charles L. and Samuel Edwards, both of this city—and by two sisters—Mrs. John Roper, of Baltimore, and Mrs. A. H. Welch, of Needmore, N. C. Her funeral will take place from the First Baptist Church, of which she was a member, to-morrow afternoon at 5:30 o'clock.

Dublic School Teachers Elected.

At a meeting of the City School Board last evening, teachers in the public school for the next term were elected. No changes were made in the present efficient corps, with one exception, that of Mrs. J. A. Strachan, who voluntarily retires from teaching after a faithful and constant service of thirty-five years. She was elected in 1874, and has served continuously since. She was the head of the primary department of the public schools and made a splendid record as a teacher and manager of the younger children. The board passed resolutions expressing their sense of obligation and gratitude to Mrs. Strachan for her long and faithful and satisfactory service.

After July 4th when you call a number on the telephone you should give the exchange prefix Madison or Monroe. The prefix should be given before the number; for instance, "Madison-9-0-1-0" and not "9-0-1-0-Madison". When the additional exchange is opened the subscribers' lines will terminate in one of the two offices, Madison or Monroe. Unless the prefix is given the operator will not know in which central office the called number is located, and in the absence of this information cannot complete the connection.

If you do not give the prefix and simply ask for 9-0-1-0, the operator will say "Which office please?" This question means that the operator wishes to know in which central office the number you are calling is located.

It can be readily seen that unless the prefix is given, delay and confusion will result. In order to avoid this, subscribers are requested to consult the new telephone directory and ascertain the prefix before making the call.

Do not use the new directory until July 4th.
